

Note to Users

In order to differentiate between the municipalities of Kupres, Pale, Trnovo and Foča in the Federation of BiH when publishing the Census results, the suffix Republika Srpska is added to the names of these municipalities in this release, in order to emphasize that these are the municipalities in Republika Srpska and to avoid possible confusion among users.

In Table 13. Households by number of household members, Republika Srpska level and municipality/city level, the total number of household members also includes temporarily present persons.
